SUNPRO SUPREME BRIGHT LIGHT BOX – 10,000 LUX

The closest simulation to Natural Sunlight!
The secret to a healthful lifestyle!
Special Introductory Price – Item No. SPLB

Like water, air, or food, light plays a vital role in our daily lives and in our feeling of comfort and well being. Based on the latest scientific research, the **SUNPRO** Full Spectrum Light System has been engineered for those who have shown to be adversely affected by the lack of Natural Sunlight, due to inadequate exposure of their living and work space or during the dark and depressing Fall and Winter months. **CAUTION** - Most light boxes on market use standard fluorescent tubes 4100K to 5000K, 75 to 85 CRI. **SunPro Supreme** uses the best full spectrum on market 5500K – Noon Day Light and 96 CRI – Color Rendering Index, Sunlight is 100.

SPECIFICATIONS ON SUNPRO

SUNPRO uses the latest high power and high C.R.I. fluorescent technology to best simulate the Sun's Rays. (High lumen output, with patented unique phosphor blend fluorescent bulbs, 110 V, 20,000 hour life), flicker free energy efficient electronic ballast. Provides 10,000 Lux of bright, color balanced, Sun-like rays at a distance of 36" (3 ft.), which does not require close sitting (like most other light boxes on the market.) Uses an advanced flicker free high power factor electronic ballast for long term efficiency, and reliability operation. Equipped with a special

prismatic lens for comfortable, glare-free light distribution, and total protection from harmful U.V. and electro-magnetic radiation.

Compact size, light weight and easy to carry with handle,

Watts - 110, Lamp User Hours - 20,000

Color Temperature - 5500° K, 96 CRI, LUX AT 36" - 10,000, LUX , AT 24" - 12,000

We feel that the best distance of usage is about 2 1/2 to 3 feet. We also feel that the light should be used in the morning hours and for a period of about 30 minutes. Also note that the user can perform other tasks while using our bright light system and does not have to stare into the light to benefit from it. But each individual after a while will find what is most comfortable.
