

PET LAMPS

Solar-Brite™ Exotic Pet **(UVA/UVB PLUS HEAT)** lamps are useful in preventing and treating Metabolic Bone Disease that can occur with reptiles in captivity. The combination of UVA/UVB plus heat stimulates appetite, increases the brilliance of the reptile's natural color and assists in inducing breeding when included in a light cycle regimen. Solar-Brite™ lamps are economical; they provide both proper light and heat from a single unit and have a useful life of 10,000 hrs. Voltage – 120 volt.

Item #	Description	Bulb	Watts	Color	Length
80750	50R20 / Basking Clear	R20	50	Clear	3.75"
80752	75BR25 / Basking Clear	BR25	75	Clear	4.75"
80754	100BR25 / Basking Clear	BR25	100	Clear	4.75"
80756	150BR30 / Basking Clear	BR30	150	Clear	5.25"

Clear-Brite™ Exotic Pet Bulbs **(UVA & BASKING HEAT)** provides a basking heat source perfect for tropical and desert species. Clear-Brite™ Lamps provide beneficial UVA rays, which are beneficial to your reptile's health and well being. Increases the overall ambient air temperature, and creates the proper heat gradients necessary for thermoregulation. Rated Life – 5,000 hours. Voltage – 120 volt.

Day-Brite™ color enhancing exotic pet bulbs **(UVA)** are coated with rare earth neodymium to enhance the colors of reptiles. These Full-Spectrum bulbs provide purified light that simulates the natural photo environment of a reptile's habitat. The heat radiating from these lamps simulates the sun, allowing them to bask in its warmth. Day-Brite™ also provides physiological well-being to your pet with beneficial emissions of UVA wavelengths. Rated Life – 5,000 hours. Voltage – 130 volt.
